# DS-35

## FAST, EASY, COMPACT OFFICE SOLUTION

The office-friendly system for folding and inserting mail

WE VALUE YOUR MAIL

neopost

# DS-35

## GET THE MAIL OUT... AND ALL YOUR OTHER WORK TOO

With Neopost's DS-35 system, manual folding, inserting and sealing mail can now be done in minutes, instead of hours. That means significant time will be available to do all the other things that need to be accomplished in your office.

The DS-35 is very easy to use. Load envelopes and documents. Select a pre-programmed job. Press a button. That's all there is to it. The DS-35 goes to work producing a professional looking mail piece every time.

The compact DS-35 can be placed on a desktop for convenient access. Its color touch screen makes operation easy and intuitive. But, don't let its low profile fool you. It has been designed to power through a variety of folding and inserting tasks including: letters, invoices, statements, legal documents, half-folded marketing pieces and daily mail.

Simply load documents and envelopes, select a job and press start – it's that easy

An adjustable catch tray allows for processing of a variety of envelopes

### EASY AND INTUITIVE WITH INSTANT JOB RECALL

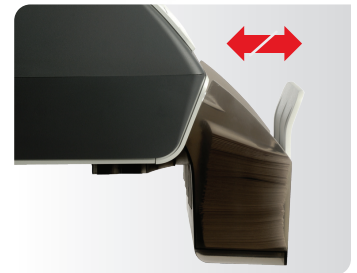

An intuitive color touch screen guides the operator through a new job setup. The DS-35's 15-job memory provides instant recall for the most frequently used folding, inserting and sealing tasks.

### A PERFECT FIT FOR YOUR OFFICE

In addition to being easy to use, versatile and productive, the DS-35 is compact and reasonably quiet. It will blend in nicely with your workflow and office environment.

The space taken up by this solution is optimized even further thanks to its adjustable catch tray.

Two document feeders provide increased versatility and productivity: Collate separate sheets, alternate single document insertions between trays for long unattended runs, or manually feed up to five sheets

A special insert feeder allows for the insertion of business reply envelopes, marketing flyers, etc.

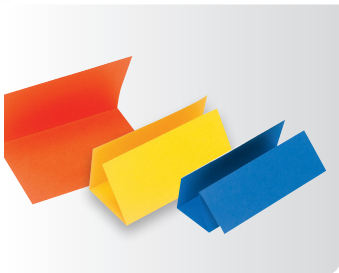

Sleek design, compact footprint, low noise and increased office productivity make the DS-35 a welcome addition to your office

**INTUITIVE – NO SPECIAL SKILLS REQUIRED**  
**OFFICE FRIENDLY – SLEEK, COMPACT AND QUIET**  
**VERSATILE – HANDLES VARIOUS MAILING APPLICATIONS**  
**PRODUCTIVE – PROCESSES UP TO 22 PIECES PER MINUTE**

**SUPERIOR ACCESSIBILITY KEEPS YOU UP AND RUNNING**

With only one button to open the DS-35, there is quick and easy access to the folding area and paper path.

**MEETS A BROAD RANGE OF MAILING NEEDS**

The DS-35 can handle a wide range of documents, envelopes and even inserts or business reply envelopes. You can choose between three fold types according to your mailing requirements.

Continuous operation is achieved by linking feeder trays. If one feeder runs empty, another one takes over. A semi-automatic feed function makes it possible to feed up to five sheets, with or without staples.

**MAIL INTEGRITY AND ACCURACY ASSURED**

Neopost's double document detection system prevents double feeding. This electro-mechanical system is not sensitive to paper dust or colored paper, thus ensuring the right document gets to the correct recipient.

- 2 sheet and 1 insert/BRE feeders
- secure'n Feed™ double detection
- Automatic thickness adjusting feeders
- Cascade feeding
- Manual feed mode
- Tip-to-tip sealing
- Small footprint

#### OPTIONAL

- insert'n Mail™ system integration
- Output Management Software
- Furniture

### ENVIRONMENTAL COMMITMENT

Neopost launched eco signature to identify the most efficient and environmental friendly solutions. The signature reflects our aim to inform customers of the environmental progress we have made in recent years.

With the DS-35, we have achieved great improvement. The DS-35 is compliant with environmental regulations [Energy related product – standby and off mode, REACH, ROHS, and WEEE].

**ENERGY:** The DS-35 consumes seven times less energy due to automatic sleep mode and auto-off (0,3W) during a working year.\*

**PACKAGING:** The carbon footprint during transport is improved since ratio of packaging volume vs. DS-35 volume is low.\*\*

### SPECIFICATIONS

#### DOCUMENTS

|                 |                     |
|-----------------|---------------------|
| Height          | 7" – 14"            |
| Width           | 5.6" – 8.9"         |
| Weight          | 18 – 30 lbs.        |
| Feeder capacity | 100 sheets (20 lb.) |

#### INSERTS/BRE

|                        |              |
|------------------------|--------------|
| Height                 | 3.5" – 5.9"  |
| Width                  | 5.6" – 8.9"  |
| Weight insert          | 20 – 62 lbs. |
| Weight BRE             | 19 – 30 lbs. |
| Feeder capacity insert | 200 (62 lb.) |
| Feeder capacity BRE    | 100 (20 lb.) |

#### ENVELOPES

|                 |                        |
|-----------------|------------------------|
| Height          | 4.1" – 6.5"            |
| Width           | 8.8" – 9.5"            |
| Weight          | 19 – 30 lbs.           |
| Feeder capacity | 100 envelopes (20 lb.) |

#### FOLDING

|                  |  |
|------------------|--|
