MAIL PIECE PRODUCTION CONTROL
END-TO-END MAILING PRODUCTION
INTEGRITY FROM PRINT TO INSERTION

WE VALUE YOUR MAIL 

MAIL PIECE PRODUCTION CONTROL

DOCUMENT SECURITY AND MAILING INTEGRITY SOLUTION

Is the integrity of your mailing ensured during production? Mail Piece Production Control (MPPC) is a scanning hardware and software solution, which complements Neopost PrintMachine output management software and folding/inserting systems for monitoring the mail piece insertion process and enabling easy reconciliation of missing or damaged documents. It also provides detail production reports to guarantee end-to-end mailing production integrity from print to insertion.

1

PRINTING

Each document is tagged with a unique 2D barcode to the address block. This allows each document to be individually identified.

2

SCANNING

A scanner checks every document as they are inserted. The envelope window is scanned and the documents are reconciled in realtime with the original document printstream database.

3

RECONCILING

Its Integrity Control Dashboard provides realtime alerts for any out-of-sequence, missing, duplicate, misread or invalid document discrepancies during production. The MPPC intelligence can reprint, process and re-scan any missing documents, making reconciliation simple.

EnvelopeID	Scanned Data
000000034	000000034
000000035	000000035
✘ Inserter STOPPED	duplicate EnvelopeID: 35
000000036	000000036
000000037	000000037
000000038	000000038
000000039	000000039
000000040	000000040
✘ Inserter STOPPED	Gap between EnvelopeIDs: 41 is missing
000000042	000000042
000000043	000000043
000000044	000000044
000000045	000000045
000000046	000000046
000000047	000000047
000000048	000000048
000000049	000000049
000000050	000000050

4

REPORTING

Its intelligent Verification Reports feature is designed to run reporting that delivers full audit trail capabilities by line item, and creates status reports of each production run.

END-TO-END INTEGRITY WITH PRINTMACHINE

Your operation depends on privacy, confidentiality, and timeliness of your mailings, whether it's invoices, statements or other critical time-sensitive mailing applications. When combined with PrintMachine Optical Mark Recognition (OMR) generation and Neopost OMR-capable folding/inserting technology, MPPC delivers unsurpassed document security and integrity, ensuring that all pages of a document stay together in the right order and that the document is correctly inserted. Once the production run is completed, MPPC's output tracking, auditing and reporting lets you know first-hand now or when a customer service issue arises that your customers' documents have been correctly processed. This enhances your ability to easily maintain regulatory compliance with HIPAA, Sarbanes-Oxley, the USA Patriot Act, Gramm-Leach-Bliley and FERPA.

WHY CHOOSE NEOPOST

Neopost is a leading worldwide provider for mailing and shipping solutions. Our innovative products and services bring simplicity and efficiency to your complete mailing process to make your business run more effectively.

Mail Piece Production Control works with the full range of Neopost's intelligent inserting systems
