AS-930 MID-VOLUME ADDRESS AND BARCODE PRINTING SOLUTION

Easy-to-use desktop systems that deliver significant postal savings

WE VALUE YOUR MAIL

AS-930

ADDRESSING SOLUTIONS

Whether for marketing activities or the monthly invoice run, you want your mail to get to your customers in the shortest possible time, with no mistakes. Neopost addressing solutions ensure maximum speed, accuracy and flexibility for all your printing jobs.

Designed for mid-volume users, the Neopost AS-930 features fixed head technology capable of printing at nearly constant speed regardless of content onto a wide variety of documents such as envelopes, postcards, magazines or newsletters. The AS-930 is perfectly suited for high speed printing or repetitive mail runs, as its secured paper path and low jam rate provides greater output for better business continuity.

The AS-930 gives you the tools you need to take the blank space of a standard envelope and turn it into a medium for your message. You can maximize its potential by personalizing your message and targeting your audience more effectively. You can also change your message as often as you want to keep things fresh. This can all be done in-house, quickly, economically and efficiently.

TIME SAVING FLEXIBILITY

The AS-930 ensures maximum speed, accuracy and flexibility for all your printing jobs. Do you have an unexpected customer offer you need to integrate? No problem – the AS-930 gives you the flexibility to make last-minute changes with ease. Productivity is increased naturally with high printing speeds and high capacity outputs which reduce cycle time. And your customer information is protected with the complete in-house control of the database.

The AS-930 utilizes HP inkjet technology to ensure crisp, clean printing on your mailpieces, including optional spot color ink cartridges.

Neopost addressing software CASS™ and PAVE™ certifies your mail for USPS® postal automation discounts.

ENHANCED COST CONTROL

Printing labels is an expensive and time-consuming business. The AS-930 cuts out the need for buying and stocking labels – and the manpower required to apply them. Blank envelopes are transformed into powerful marketing messages that work hard for your business. With address management software, the duplicate and inaccurate addressing detection feature allows you to reduce return, duplication and unnecessary mail costs, and because you can produce a higher volume of mail faster, you can benefit from USPS® automation discounts.

MAILROOM INTEGRATION MADE EASY

The AS-930 is easy to install without major IT involvement. Just load the plug'n play software onto your computer and within a few minutes, you're up and running. One-touch controls and clear, concise prompts on the LCD display make even the most complex jobs seem easy. Our addressing solutions come with a variety of finishing options to suit your needs. For optimum efficiency with larger mail runs, you can add an optional stacker or dryer, which integrate easily into your existing mailing process with a folder/insert, mailing machine and more.

WHY CHOOSE NEOPOST?

Neopost is a world leader in mailing and logistics solutions. Our innovative solutions bring simplicity and efficiency to your mailing process to make your business run better.
