Keep pace with today's office mail center demands

The DS-77 iQ combines unparalleled ease of use with the latest technology. From its intelligent features such as CIS scanning technology, reading and sorting capabilities to its compact footprint, the DS-77 iQ takes folding and inserting mail to the next level.

Process a wide variety of mail from transactional documents such as invoices and monthly statements to marketing applications in different shapes and sizes. The intuitive color touch screen prompts the operator through each step of the process. This scalable system is extraordinarily quiet and designed to fit perfectly into any work environment. With its wireless and LAN embedded capabilities, the DS-77 iQ connects to your network to enable remote diagnostics and assistance to provide help when needed.

Increase security and integrity

The DS-77 iQ offers **AIMS Office**, a closed-loop mail piece verification solution that oversees the mail assembly process from start to finish. **AIMS Office** monitors and records the process to ensure that all communications are inserted into the correct envelope and alerts you if any document was misfed. Your mailings are completed with the utmost integrity to help support compliance requirements and privacy regulations.

Automate document preparation

Seamlessly pair your folder inserter with document automation software to gain efficiencies in your mailing operations. Quadient's optional Document Automation Software, **Impress** adds significant value by enhancing the formatting, personalization, grouping, printing, barcoding, and addressing of your documents to ensure every customer's mailing contains the right documents and delivers the best customer experience.

Business Impact

Revenue Growth

Accelerates document processing time by enabling staff to focus on more revenue-driving work.

Customer Engagement

Increases customer satisfaction by ensuring that communications are personalized, accurate and prepared for the correct recipient.

Risk Mitigation

Ensures sensitive information is not compromised by tracking documents at every step with a closed-loop verification system.

Expense Control

Provides insight into mail spend to make smarter business decisions.

Color touch screen display

The 7-inch display enables easy navigation. Holds up to 50 pre-programmable jobs for quick job access

CIS scanner

Internal Contact Image Sensor (CIS) scanner reads OMR, 1D and 2D codes printed on the document. Stores up to 25 reading code definitions

Automated stacker

The high-capacity vertical stacker holds up to 500 finished envelopes

Envelope side guides

Provide extra support so envelopes stay in place during production to reduce risk of jams

Vertical track staging

Accelerates processing speed and multi-sheet applications when using first of group reading

Document feeders with paper presence sensors

Process multiple page sets at high processing speeds using three standard feeders. While in cascade mode, feeder sensors ensure continuous operation

A STATE-OF-THE-ART GRAPHICAL USER INTERFACE

The intuitive, high-resolution wide touch screen has a wizard-based, user-friendly interface, making it easy for anyone to create select and run their folding and inserting jobs.

Simply load documents and envelopes and press the start button. The DS-77 iQ will automatically measure the length of all loaded documents and envelopes and adjust all settings for seamless processing.

COMPLETE DIVERSE JOBS IN LESS TIME

The exclusive FlexFeed® tray enables you to process a wide variety of document types. Combine documents of different sizes simply by loading them into each feeder. The FlexFeed tray makes switching applications easy, no need to change or buy extra feeders to accommodate documents of different sizes.

MAXIMIZE PRODUCTIVITY WITH THE MAXI FEEDER TRAY

Use the Maxi feeder for heavier stock items like booklets, glossy material or up to 325 BRE's. Or load up to 1,200 sheets for optimal productivity.
