neopost

IM-30/35
YOUR DESKTOP
MAIL EXTRACTOR

Automatically opens and extracts documents up to
20 times faster than by hand.

IM-30/35

OPEN AND EXTRACT ALL OF YOUR MAIL EASILY, SECURELY AND EFFICIENTLY.

Your inbound mail contains documents that are crucial to your business - everything from payments and invoices to important customer responses. All of them need to be processed quickly and securely. That's where a Neopost IM-30 or IM-35 shines, making a big difference in speed, accuracy and efficiency. If your company receives as few as 400 mail pieces a day, then you need an IM-30/35. Not only can each envelope be automatically opened on 1, 2 or 3 sides, but the contents can be extracted for faster processing and routing.

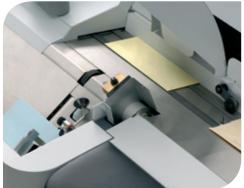

Operating the IM-30/35 couldn't be easier - just load your unopened mail and press start.

The IM-30/35 handles up to 300 pieces of mixed-size mail without presorting - just load the hopper and press start.

Built to perform reliably day-in and day-out, the IM-30/35 opens envelopes without damaging the contents.

A convenient conveyor system can be added for additional hands-free productivity.

WHY CHOOSE NEOPOST

Neopost is a leading worldwide provider of mailing and shipping solutions. Our innovative products and services bring simplicity and efficiency to your complete mailing process to make your business run more effectively.
