TA-25 TABBING SYSTEM

Multiple side tabber for unparalleled productivity

WE VALUE YOUR MAIL

TA-25

TABBING SYSTEM

MULTIPLE SIDE TABBER FOR UNPARALLELED PRODUCTIVITY

The TA-25 is quite simply the most technologically advanced tabletop tabbing system available today. It can do something that no other tabletop tabbing system on the market can do – apply tabs to the top and side of a mailpiece simultaneously. Even more impressive, it can apply tabs on opposite sides of the same piece (side-to-side tabbing) in a single pass!

With one fixed tab head that can apply tabs along an open edge and the other tab head able to switch from side tabbing to crash (or front) tabbing, multiple-side booklet tabbing is no longer a difficult task. The TA-25 applies clear, translucent or paper tabs with ease in a variety of tab sizes, including the new 1.5" tabs for letter-size booklets. It also applies USPS® stamps for a custom look.

Whether side-to-side tabbing or single tabbing, the TA-25 multi-side tabber/stamp affixer will make your job easier, more productive, profitable and efficient. Its heavy-duty aluminum and steel construction will guarantee you years of reliable, high performance use.

QUICK FACTS

- Apply 1.5" tabs side-to-side or top-to-side with one versatile and affordable unit
- Operates at speeds up to 25,000 per hour for ultimate productivity
- Applies USPS® pressure sensitive roll stamps for a professional look
- Unique design can switch from front tabbing to side tabbing in seconds
- Runs high quality Neopost tab rolls up to 9" in diameter with a standard 3" core size
