MAILING SYSTEMS

WJ PRO

Digital Mailing System for the Production Environment

HASLER

America's better choice.®

FAST CONTINUOUS PROCESSING FOR THE PRODUCTION ENVIRONMENT

In today's production mail environment you need a reliable, in-line digital mailing system that increases efficiency and reduces down time. Hasler brings you the WJ PRO, a digital mailing solution designed to meet the non-stop demands of production mail centers.

The durable WJ PRO combines the latest metering technologies and state-of-the-art serviceability to offer the ideal solution for your production mailing requirements… faster and more professional than ever.

Processes single or mixed weight mail at speeds of 15,000 envelopes per hour

WJ PRO FEATURES THAT REDUCE DOWNTIME:

Short paper path and automatic thickness adjustment handles mail pieces up to 5/8". This ensures continuous processing, while minimizing paper jams and postage waste.

Freestanding, "status light tower" allows you to monitor system status and can be placed anywhere in the mail center.

Easy-to-change, large volume ink reservoir is replaceable without interruption.

SmartClean™ technology will save time as the system automatically cleans the print heads.

NEW COST SAVING INDICIA

The WJ PRO prints a USPS® compliant IBI Lite indicia that costs a fraction of a traditional IBI indicia, and can print at full speed for both letterbox and presorted mail.

SINGLE OR MIXED MAIL CAPABILITY

The WJ PRO handles single or mixed-weight mail automatically without losing processing speed. One meter can set up to three different postage values, increasing output while saving time and money.

MANAGING MAIL ACTIVITY

The WJ PRO makes it easy to monitor postage for jobs and clients. You'll quickly see the benefits from expenditure tracking of up to 500 accounts or by generating specialized batch reports to record or print volume and postage values.

MAIL CENTER INTEGRATION

The WJ PRO connects easily to your production folder/inserter, either mechanically or electronically. Its seamless electronic communication ensures efficient, mixed-weight processing and instant reaction to any stoppage or system shutdown.

The WJ PRO connects easily to your production folder/inserter, either mechanically or electronically

HASLER CAN HELP YOU BUILD YOUR TOTAL MAILING SOLUTIONS

The versatile WJ PRO in-line digital mailing system is designed to boost efficiency and productivity throughout a production mail operation. It offers cutting edge technology combined with ease of use – a combination that can give you a leg up in the most competitive business environments.
